

FIGHT FOR PEACE ALLIANCE

WORK IN THE UK

The Fight for Peace Alliance impacts young people in communities around the world by connecting youth-focused organisations together and fostering ongoing exchange between them. The aim is to capitalise on the collective knowledge and skills contained in this global network and ensure that we all become stronger, more sustainable, and even better placed to meet the needs of our young people.

Thanks to The National Lottery Community Fund over the course of three years the programme consolidated its work in the UK by growing in size, strengthening organisations capacity, and scaling the Fight for Peace alternative education programme.

2018-2021
